Local Cultivation of Ganja

From

The Excise Commr in Mysore

No. 7163 Dated 19/3/13 Received 20/3/13

Diary No. 3665 | Enclos. 2 | Spare Copies. — | Serial No. 22

BRIEF ABSTRACT OF LETTER.

Proposes the cultivation of Ganja & requests sanction to an advance of Rs 7163-14-3 for payment to the cultivators & other details

NOTES AND ORDERS.

1. The Excise Commr reports that the quality of Ganja grown locally, is equal, if not superior to the best sort purchased at Duggapad last year. He requests sanction of an advance of Rs 7163-14-3 for payment

OFFICE OF THE EXCISE COMMISSIONER IN MYSORE.

Bangalore, dated 19th March *19* 13.

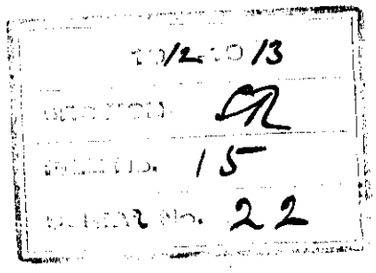
19

DIARY No. 3665

FROM

L. Kantaraj Urs., Esq., B.A.,
Excise Commissioner in Mysore.

To



K. R. Srinivasiengar, Esq., M.A.,
Offg: *Secretary to the Government of*
His Highness the Maharaja of Mysore,
General and Revenue Departments.

Sir,

In continuation of my letter camp No.8, dated 29-11-1912, I have the honor to submit for the information of Government that a consignment of cured Ganja of 257 maunds, 38 seers and 24 tolas was brought in from one of the curing depots established at Nagasandra Goribidnur Taluk. I appointed a committee of the marginally named officers to verify the contents of the packages and classify them according to their quality. I submit the report submitted by them for information.

Mr. B. Channaiya.
Mr. J.E.Rozario.
Mr. L. Ranga Rao.

2. Class A is almost equal if not superior to the best sort purchased at Duggapad last year and the cultivators have shown great improvements in the harvesting and curing of their yield throughout.

3. I have accepted the recommendation as to the rates payable of the committee and have therefore to request you to sanction an amount of R.7045/- to defray the cost as shown in the enclosed list.

4. An expenditure of R.118-14-3 was incurred to transport the consignment from Dodkurgode Railway Station to the Central Distillery Stores at the Distillery.

5. As the cultivators are eagerly pressing for payment, I request that early sanction may be obtained for advancing a sum of R.7163-14-3 (R.7045 plus R.118-14-3) for this purpose.

6. I may add that a further consignment of about 185 maunds

is

(2

is expected from the two other curing Depots, detailed report about which will be duly submitted.

I have the honor to be,
Sir,
Your most obedient servant,

Excise Commissioner.

Enclosure No. 22 of 1915-12

(3)

Government Central Distillery,
Dated, Bangalore, 7th March '13.

From

The Committee
for the classification and valuation
of Ganja manufactured in the
Coribidnur Taluk.

To

T. Kantaraj Urs, Esq., B.A.,

Excise Commissioner in Mysore.

Sir,

In response to the Excise Commissioner's official Memo-randum No. 6717-19 dated the 28th February 1913 the committee met in the Government Central Distillery Buildings on the 3rd March 1913, and subjected for test by seven Bhairagi Ganja smokers, the different varieties of Ganja received from the Coribid-nur Taluk this year. The smokers unanimously preferred the Ganja manufactured by one Sod Nagappa to any other kind given to them including the best quality of Duggapad Ganja available in the stores. Next in rank was the Duggapad best quality and the remain-ing varieties from the Coribidnur Taluk were certified to be equal in quality to the second rate Ganja got from Duggapad.

Classification. Next morning the members of the Committee again met in the Ganja Store House and examined and classified the Ganja of each cultivator on the basis of the color, the smell, the pressing of the cakes and the proportion of seeds and leaves in them. The Committee were assisted in classification by Excise Inspector N. Dasarathi Rao who had supervised the cultivation and the curing operations in Coribidnur and who was therefore able to furnish information on the following points : -

(a) The interest and trouble taken by each ryot in the cultivation and in the harvesting and curing of the crop.

(b)

(b) The number of cakes manufactured from 100 plants and

(c) The average yield per acre.

A classified statement of all the Ganja was then drawn up on the above basis and the different varieties were divided into four classes as follows : -

Class A:	- - - - -	Good.
Class B:	- - - - -	Fair.
Class C:	- - - - -	Indifferent.
Class D:	- - - - -	Bad.

As the result or this classification, 144 maunds 8 seers and 33 tolas of Ganja were classed under A, 78 maunds 43 seers and 33 tolas under B, 33 maunds, 00 seers and 00 tolas under C and 2 maunds 6 seers and 79 tolas under D, making up the total 257 maunds, 38 seers and 24 tolas. A statement is herewith submitted showing details of classification.

Considering the current rate of price prevailing in Duggapad the Committee beg to propose the following rates for the different classes noted above with a view to encourage local enterprise : -

Class A:	12 annas	per seer of 80 tolas.
Class B:	10	- - - do - - -
Class C:	8	- - - do - - -
Class D:	6	- - - do - - -

An class ' A ' Doddanagappa who has produced as much as 17 maunds per acre and whose Ganja has been appreciated is recommended to be given at the rate of thirteen annas per seer.

Conclusion. In general the Ganja this year must be said to be far superior to that grown last year, both in the method of - - cultivation and in the process of curing and pressing into cakes. The device adopted by Excise Inspector Dasarathi Rao in having the Ganja pressed into cakes of uniform size in ordinary kerosine oil tins was adoptable for the purpose, is no doubt a novel one, but it is capable of much improvement by making the cakes thinner and of

uniform

(5)

uniform thickness. The thinner the cakes the better they can be dried and the possibility of the cakes getting mouldy inside will be very much minimised. Some of the Ganja was found to be mouldy.

The Ganja is deficient in resinous matter owing it would appear to the heavy rains this year. The ryots could not remove all the male plants in time for the same reason and as a consequence seeds have to some extent formed in collies at the expense of resin. It appears to be essential that liberal rates should be allowed this year in order to make the concern pay and to induce the cultivators not only to come forward freely but also to reserve their best plots of land for Ganja cultivation next year. The difference in the rates allowed for the various classes will tend to make the cultivators take more interest in the work and try to produce Ganja of good quality.

Report about cultivation. As the harvesting and curing operations are not still complete and as another consignment of Ganja is expected from Goribidanur, a detailed final report will be submitted after the above work is completed and on receipt of the report from the Ganja Inspector, through the District Excise Officer, furnishing particulars of cultivation, harvesting and curing etc.

We have the honor to be,
Sir,
Your most obedient servants,

(sd) M. Ranga Rao.

SECTION SR
FILE No. 15
SERIAL No. 24

Sir,

Referring to your letter No. Fi. 5411 dated 28th instant, calling for information regarding the forecast of ganja that may be required from the Sore-Houses in the Madras Presidency for supply to the State during the next 5 years, I have the honor to state that in view of the arrangements made for local cultivation of Ganja in the Goribidnur taluk and the results that have so far attended it, it is not possible to estimate beforehand the requirements for the next five years. A consignment of about 258 maunds of cured ganja was lately brought to the Distillery from one of the curing depots, will be follow-ed by another consignment of about 185 maunds from 2 other curing depots in the said taluk. The total quantity will be quite ample for meeting the demand of the State during the next year 1913-14 and as such there will be no need for indenting from the Sore-Houses in Madras.

As the question of annual supply from the Madras Government depends entirely on the results of the Local cultivation, no forecast can possibly be given at this stage as to the demand of the State for next 5 years.

I have the honor to be,
Sir,
Your most obedient Servant,

for Excise Commissioner.

Offg: *Secretary to the Government of*
His Highness the Maharaja of Mysore,
General and Revenue Departments.

Sir,

In continuation of my letter No.7163 dated 19th ultimo, I have the honor to state that a second consignment of Ganja was received at the Distillery from the other curing Depots of the Goribidnur Taluk and was ordered to be verified and classified by the same Committee which was appointed to examine the first consignment.

I append to this a statement showing the quantity verified and booked in favor of each cultivator and the classes to which the different sorts have been placed by the Committee.

The Committee recommend the same rates to be paid for the different classes as were given to the cultivators of the previous consignment the standard of comparison employed by them being the same. I accept their recommendation and request you to kindly obtain the early orders of Government to sanction a sum of R.3438-5-4 as calculated in the annexed list, for payment to the cultivators.

I have the honor to be,
